

## Presentation / Printed Bands

Our promotional / presentation bands are manufactured from premium quality silicone rubber with improved printing techniques that won't easily rub off like natural rubber bands. Mainly used when presentation is important these bands can be manufactured in a pantone colour reference of your choice or standard bright colours to include logos.

Typical uses include	Band properties
<ul style="list-style-type: none"> <li>- menu board bands</li> <li>- collating paper and cards</li> <li>- grouping promotional items</li> <li>- rolled up certificate/degree</li> <li>- colour coding goods</li> <li>- distinctive design feature</li> </ul>	<ul style="list-style-type: none"> <li>- latex free, ozone and UV resistant</li> <li>- double sided printing (360° around)</li> <li>- food contact quality – can be used in the oven</li> <li>- extended band &amp; print life – washable in dishwashers</li> <li>- premium print quality - custom pantone colours</li> <li>- high temperature resistance to 200°C</li> </ul>

### MATERIAL DATA SHEET

Reference	Sil.40
Base Polymer	Silicone
Colour	Various

<u>Test</u>	<u>Unit</u>	<u>Specification</u>	<u>Results</u>
Hardness	Shore	35 - 40	38
Specific Gravity	g/cm <sup>3</sup>		1.12 ± 0.02
Tensile Strength	MPa	10	10
Elongation at break	%	610	635

### Applications

Food use	YES
Latex free	YES
Temperature range	+ 200° C to - 60° C

### Comments

Silicone rubber is ozone resistant and UV stable for outdoor use.
